Blue Ridge Community College Announces Seminar on Hot Renovation Trends

Have you been thinking about renovating to add value to your home, prepare for a relative moving in with you, improve the quality of your life, lower energy costs or sell your home quicker?

On Tuesday, February 2nd from 1pm-6 pm at the Top 2010 Renovation Trends Conference get free advice and direction that will save your time and money. Local experts will share tips on hot renovation trends for 2010, what renovations bring the highest return on investment, promote higher home values or quicker sale of a home. In addition to informative seminars, participants have the opportunity to talk with a certified renovation contractor; design professionals: architect, landscape architect and interior designer plus real estate professionals who know the local market.

Conference topics include: Smart Reasons to Renovate in 2010, Making the Renovation Process Easier, Multi-Generation and Aging in Place Renovations, Outdoor Living Space Renovations, Home Renovations with Best Payoffs in 2010 and Upgrades that Sell Homes. The Top 2010 Renovation Trends Conference will introduce two new renovation products: SimplyPerfect Dry Wall Repair Kit and TruSeal Green's Dry Basement System.

Looking to lower energy costs, green building energy-efficient remodeling and renovating will be popular again in 2010 with incentives still available. Improving a home's energy efficiency instead of buying a new home has become a preferred option in today's market. Home energy efficiency analysis now uses a 'whole building' approach, affecting all categories of a building from windows and doors to insulation to completely eliminating air leaks.

The conference will be at the Blue Ridge Community College's new Conference Hall off I-26 at Exit 53 Upward Road in Flat Rock, North Carolina. There is no charge to attend due to sponsor support.

Sponsors for the event include: AdvantageWest Economic Development Group; Blue Ridge Community College, Blue Ridge Innovation Network and Small Business Center; Hendersonville Board of Realtors; Hunter Marks (RLA); Land of Sky Regional Council; Mountain Bizworks; SCORE; North Carolina Association of Landscape Architects (Western Chapter); Smoky Mountain Development Corporation and William Wheeler Architect.

For more information on the Top 2010 Renovation Trends Conference or to register, go to http://www.blueridge.edu/business_person/events/index.php or call Elaine at (828) 694-1779. Registration is required and seating is limited.
